

Shared Internet Office Solutions

Share your existing cable modem or DSL line to allow more office staff to access the internet. HV Tech offers Internet connection sharing Routers, Switches, and Access Points with advanced security features. Let us help you jump start your business network by connecting local wired and wireless PCs and laptops, and remote or traveling users to your office network with secure access. This is a great way to insure maximum worker productivity, while safeguarding your network access to authorized users only. We also offer firewall appliances and firewall management software and solutions to protect your network.

Call today for your FREE consultation and learn what we can do to help your business!
